Black Grid SCREEN   S-CK SERIES

Designed to be ambient light rejecting screen

Pro trim black grid screen, multiple layers and a certain degree angle makes it an angular reflective surface.
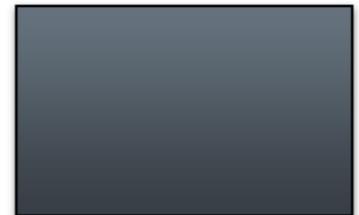

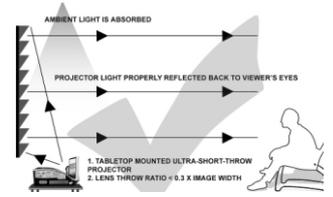

Changhong S-CK series, mimic the flat panel look with a thin bezel frame, designed for ultra-short throw projectors, the fixed frame screen and rollable screen features larger size and more application options for home theater, classroom and corporate training room.

With the advanced optical lens system, S-CK is easy to reject ambient light, and present the images light from projector only. The lens system consists of multiple layers, each of them has the property to reflect angular light, the combination of these layers allows S-CK to focus on reflecting projector light only.

The advantages of ambient light rejecting screen is that you don't have to worry about environment distraction, with a 170 degree viewing angle, the audiences can enjoy the images full brightness from everywhere in the living room.

Surface Characteristics

-Ambient Light Rejecting Surface
-Front Projection Material
-Washable and Mildew Resistant
-Flame Retardant
-Support 4K Front Projection
-Ambient Light Rejecting＞90%
-Screen Gain 0.8
-170 degrees viewing angel
-Ultra-short throw projector

Rollable Model

-S100CK(100"), S120CK(120")
-Detailed screen size & net weight
  100": 2245*1275*25, 9.06Kg
  120": 2686*1524*29, 15.5Kg
-Packing sizes & gross weight
  100": 1505*300*170, 12.88Kg
  120": 2750*290*150, 23.5Kg

Fixed Frame Model

-S120CKH(120")
-Detailed screen size & net weight
  120": 2692*1532*20, 33.5Kg
-Packing sizes & gross weight
  120": 2830*1670*160, 74Kg

Optional fittings

-Ceiling accessories for projector
  WSD-DW10/W: 60-100cm
  WSD-DW15/W: 90-150cm
-Wall accessories for projector
  WSD-ZXC03: 260-450cm, 80-100"
  WSD-ZXC05: 365-635cm, 90-135"
  WSD-ZXC08: 600-900cm
